Hydraulic Valves

Single Spool

Double Spool

Triple Spool

SBA Series- The Cross SBA series valve is a 3-position, 4-way valve in 1, 2, or 3 spool versions with float option available. Fully balanced select-fit honed spools with excellent metering characteristics give a maximum load holding capability.

Features

- 2500 psi operating pressure*
- 30 gpm flow rating
- 3/4" NPT inlet & outlet ports
- 1/2" NPT work ports
- 2000 psi adjustable relief valve
- Open center, spring centered
- Load holding cylinder port check valves

Part Number	Options
1V0208	Power Beyond Sleeve
1V0206	Closed Center Plug
1V0294	3-Position Detent
1V0096	3-way 3-Pos Spool

Made in the U.S.A.

MANUFACTURING, INC.

USES

- Double-acting cylinder or motor.
- Float position allows a dozer blade to ride the contours of the ground.

Part #	Description
SBA2	Single Spool, 3-position, 4-way
SBA22	Double Spool, both 3-position, 4-way
SBA222	Triple Spool, all 3-position, 4-way
SBAF2	Double Spool, 1st spool 4-position, with detent in float, 2nd spool 3-position
SBAF22	Triple Spool, 1st spool 4-position, with detent in float, 2nd & 3rd spools 3-pos.
